Numbers Displayed in Millions of Dollars and May Not Add Due to Rounding

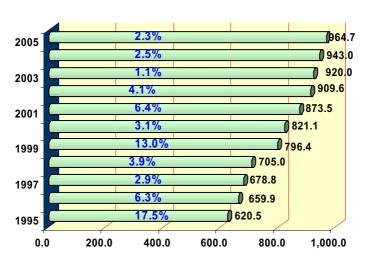

◆ Figures in the table above are skewed by the shifting of \$154 million in federal K-12 pass-through funds from the budget of the Superintendent of Public Instruction to the budget for Public Schools in FY 2004. Without this shift, the Public Schools 10-year percent change would be 54.2%, which is closer to the average increase in education budgets. The Superintendent of Public Instruction's increase would have been 108.5%, driven predominantly by large increases in those same federal pass-through funds.

Public Schools (K-12)

Original Appropriated Operating Budget	<u>FY 1995</u>	FY 2005	Annual % Change	Total % Change
By Program Public Schools	\$653.3	\$1,165.6	6.0%	78.4%
General Dedicated/Other Federal	\$620.5 \$32.8	\$964.7 \$42.9 \$158.0	4.5% 2.7% -	55.5% 30.8% -
Total	\$653.3	\$1,165.6	6.0%	78.4%

Numbers may not add due to rounding. Excludes Prof.-Tech. Educ. and Driver's Training funds. FY95 appropriation did not count federal funds.

Total General Fund Appropriations to Public Schools

Note: Blue percentage is percentage change. FY 1999 appropriations include \$54.7 million in property tax replacement previously diverted from Sales Tax collections directly to Idaho school districts.

Local School District Certified Personnel

85% of the 16,000+ certificated personnel employed by Idaho school districts are teachers.

	FY 1994	FY 2004	Annual %	Total %

Note: Based on Fall 2003 SDOE data.

FY 2003/2004 School District Profiles

Over 252,000 students are enrolled in Idaho's K-12 public school system.

			Student	Current
	No. of	Student	Teacher	Expend. Per
Size of District	Districts	Enroll.	Ratio	Enrollee*
Over 5,000 students	11	129,899	18.8	\$5,978
2,500 to 4,999 students	14	54,234	18.2	\$6,042
1,000 to 2,499 students	29	45,093	18.1	\$6,155
500 to 999 students	19	12,923	15.3	\$7,677
Less than 500 students	41	9,888	12.4	\$8,957
Statewide Total	114	252,037	18.0	\$6,227

^{*} FY 2003 SDOE sources are the most current available.

Public School Funding Formula

- Support Units An integral part of the funding formula calculations is based on average daily attendance (ADA) according to the size of the schools and category of students. For example: In a district with 300 or more elementary students, each support unit is equal to 21.5 ADA. In a district with 100 elementary students, each support unit is equal to 16 ADA. In a district with 750 or more secondary students, each support unit is equal to 18.5 ADA. In a district with 250 secondary students, each support unit is equal to 13.5 ADA. The difference between the large and small districts is commonly referred to as the "sparsity factor". (Section 33-1002, subsection 6, Idaho Code).
- Salary-Based Apportionment The salary-based apportionment segment of the public schools' appropriation makes up 68% of the appropriated state funds. When applicable benefits are included, the total state funding involved in this area is over 80%.

The salary-based apportionment is computed using the number of support units in a district multiplied by a staff allowance (equal to 1.1 for instructional positions; 0.075 for administrative; and, 0.375 for classified support staff) multiplied by a base salary (\$23,210 for instructional; \$33,760 for administrative; and \$18,648 for classified) multiplied by a district average experience and education index for the instructional and administrative areas. The experience and education index is computed according to a statutory table of years of service and level of education. Benefit costs for PERSI and FICA are computed on the total apportionment. (Sections 33-1004 through 33-1004F, Idaho Code.)

◆ Transportation Program - The costs of transporting pupils to and from school includes maintenance, operation and depreciation of vehicles, insurance, salaries and benefits of drivers, and other costs such as for contracted operations. The transportation support program is based on transporting pupils one and one-half miles or more unless approved by the state board of education. The state's share of the transportation costs is 85% of allowable costs for the preceding year (Section 33-1006, Idaho Code). The 2003 Legislature made several changes in this area, which will take place beginning in FY 2005. The most important of these changes is designed to encourage school districts with transportation costs that are significantly higher than the state average to bring expenditures more into line with other districts. Districts with costs above a certain level will not receive state reimbursement for those additional costs.

Idaho Public School Fund Flow

Local Property Taxes \$361,000,000

History of Property Tax Relief to Idaho Schools

- ♦ **HB 156**, Laws of 1995, reduced local school tax levy authority from four-tenths to three-tenths of one percent, and made up the amount of the levy reduction from state Sales Tax revenues.
- ◆ SB 1535, Laws of 1998, changed the property tax replacement mechanism. Sales Tax revenues are now deposited in the state General Fund, and the one-tenth of one percent tax relief payment to schools is now appropriated in the Public Schools budget. This change is effective beginning in FY 1999.
- ♦ HB 463, Laws of 2003 capped the amount of money that the state will provide annually for property tax replacement at the lesser of one-tenth of one percent, or \$75 million. The \$75 million cap will be reached in the FY 2005 budget.

Statewide Certified Staff Salaries for Idaho School Districts

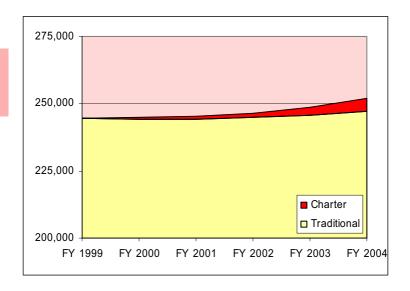

Average total teacher pay in Idaho is over \$41,000 per year.

Traditional Public & Public Charter Schools

FY 2003 Total Funding per Enrolled Student

Traditional Public & Public Charter Schools

2004 Charter School Legislation

♦ SB 1443 - This legislation dealt with funding issues associated with virtual charter schools. The legislation provided that such schools will be assigned no higher than the median attendance divisor for FY04 and FY05, for the purposes of determining support units, and no higher than the second highest divisor for FY06 and FY07. Such schools will receive their actual divisor for FY08 and forward.

The legislation further provided that such schools will be eligible, beginning in FY06, to receive the state's customary 85% transportation match for the cost of transporting the education program to the child (similar to the traditional cost of transporting the child to the education program). Costs eligible for reimbursement include internet access, electronic and computer equipment, toll-free telephone service, the mileage costs of teachers and staff conducting home visits, and any regular transportation costs that may be claimed by a school district (such as educational field trips). Such schools will still be subject to the same funding limitations that require costs to be within a certain percentage of the statewide average for transportation services.

- SB 1444a This legislation overhauled most of the sections of state law governing charter schools. Key points of the legislation included provisions that:
- Clarified that charter school employees and governing boards were subject to the same ethics standards as traditional school districts.
- Created the Public Charter School Commission as a new, state-wide entity with the authority to grant and oversee charter schools. The commission includes three current or former school board members, three current or former members of charter school boards of directors, and one at-large member not associated with the education industry. All members are appointed by the Governor, subject to Senate confirmation.
- While still requiring groups petitioning for the creation of a new charter school to first submit the application to the local school board, the legislation allowed the petitioners to refer their application to the Public Charter School Commission within 30 days of submission to the local school board, if agreement has not been reached.
- Granted the State Board of Education the authority to designate charter schools as Local Educational Agencies (LEAs).
- Reduced the number of new charters that may be authorized in the state each year from twelve to six.

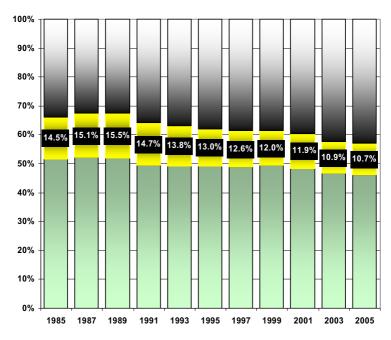

General Fund Support for Higher Education A 20-Year History

Source: Legislative Budget Office

As a percent of Total General Fund Appropriations, funding for Idaho's 4-year institutions of higher education has been impacted by the rapidly growing costs for Corrections and Health & Welfare.

BSU, ISU, UI and LSCS would have received an additional \$74.8 million in FY 2005 had they received their FY 1985 share.

General Fund			Annual	Total
Approps (millions)	FY 1985	FY 2005	%Chg	%Chg

FY 2004 to FY 2005 Change in Operating Budgets

FY 2005 Appropriated Funding by Personnel, Operating & Capital Expenditures

Source: Office of the State Board of Education

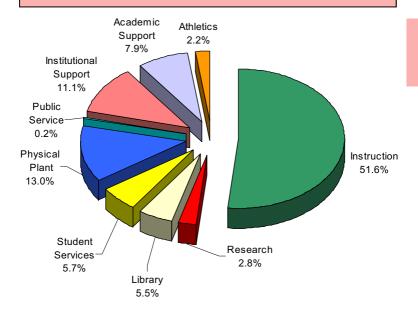

Personnel costs will consume 78% of the \$339.1 million distributed to the 4-year institutions. Of the \$262.7 million spent on employee compensation, the biggest chunk goes to faculty salaries and the next biggest chunk goes to benefit costs for all employees.

Operating expenses account for 19% of the higher ed appropriation. Of the \$64.2 million spent on consumables, \$11.5 million (18%) will be spent on utilities, \$2.0 million (3%) will be spent on insurance and \$1.9 million (3%) will be spent on travel.

Capital Outlay totals under 4% of the appropriation or \$12.2 million. Library acquisitions typically account for two-thirds of the durable goods purchased by the institutions.

Use of FY 2005 Appropriated Funding by Functional Classification

Source: Office of the State Board of Education

Instruction: academic and professional-technical credit and non-credit courses including faculty.

Research: individual and/or project research, institutes and research centers.

Student Services: financial aid, counseling and career guidance, student health services, student newspapers, student organizations, intramural athletics, cultural events, etc.

Physical Plant: services and maintenance related to facilities and grounds.

Public Service: cooperative extension, conferences, institutes, radio & television, reference bureaus, consulting, etc.

Institutional Support: governing board, planning, programming, legal, fiscal, personnel, logistical, fund raising, investment, etc.

Academic Support: academic administration, computing services, libraries, museums, galleries, audio-visual services, etc.

Athletics: administration, marketing and student participation in intercollegiate men's and women's athletics.

Student Fees

Source: Office of the State Board of Education, WICHE

Student fees in Idaho have increased by an average of 8.9% over the past ten years. As of FY 2004, they were 90% of the WICHE* State Average. The least expensive WICHE state is Wyoming at 70% of average. The most expensive WICHE state is Washington at 131% of average meaning that fees there are about twice Wyoming's.

Annual Undergraduate Full-Time Student Fees	FY 1995	FY 2005	Annual <u>%Chg</u>	Total <u>%Chg</u>
Resident Fees				
Boise State University	\$ 1,580	\$ 3,520	8.3%	122.8%

Idaho's Higher Education System Student Fees

Student 1 ees

Source: Idaho Legislative Budget Office

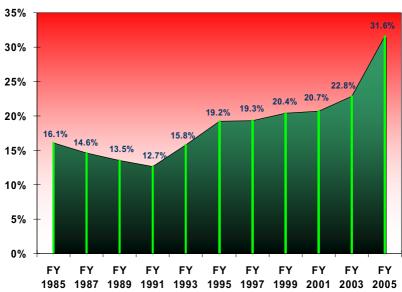

Student Fees have come to account for nearly one out of every three dollars appropriated to higher education in Idaho. Fourteen years ago, student fees contributed only one of eight appropriated dollars.

The student fees are replacing primarily appropriations from the **General Fund**. Over the past ten years, General Fund money going to higher ed has increased by 36% while student fees have increased by 165%.

Even with the significant losses experienced by the **Endowment Funds** since FY 2003, their contribution to higher education has outpaced appropriations from the General Fund, although they account for less than five percent of the total higher ed appropriation.

			<u>Annual</u>	<u>Total</u>
Original Appropriation	FY 1995	FY 2005	%Chg	%Chg
General Fund	\$164.56	\$223.37	1.5%	35.7%
Endowment Funds	\$7.02	\$10.02	1.8%	42.7%
Total State Support	\$171.6	\$233.4	1.6%	36.0%
Student Fees	\$40.7	\$107.9	5.0%	165.1%
Total Appropriation	\$212.3	\$341.3	2.4%	60.8%

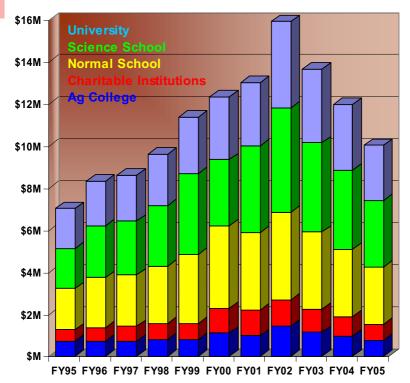

Student Fees as a Percent of the Higher Education Appropriation

Endowments

Campus New Construction Funding

Source: Idaho Legislative Budget Office

Since FY93, higher education has received \$83.2 million dollars for new buildings from the Permanent Building Fund (PBF) plus another \$66.2 million in bonding authority via HCR 30 in FY04 for a total of \$149.4 million.

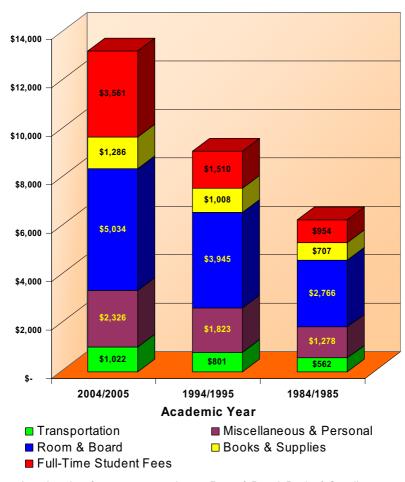

Idaho's Higher Education System Cost to Attend College

Cost to Attend College HISTORY

It costs about \$13,300 per year for a resident, undergraduate, traditional, full-time student to attend BSU, ISU, UI or LCSC. It cost \$9,087 ten years ago, or about two-thirds of today's cost It cost \$6,267 twenty years ago, or less than half of today's cost

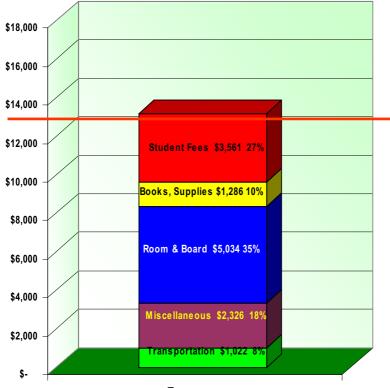

Actual student fee amounts are shown. Room & Board, Books & Supplies, Miscellaneous & Personal and Transportation expenses reflect 2004 estimates deflated to constant 1994 and 1984 dollars.

Cost to Attend College EXPENSES

Of the **\$13,300** it costs an Idaho resident to attend one academic year of higher education in-state:

- Student Fees consume one out of every four dollars
- Room & Board is the largest expense at about \$560 per month

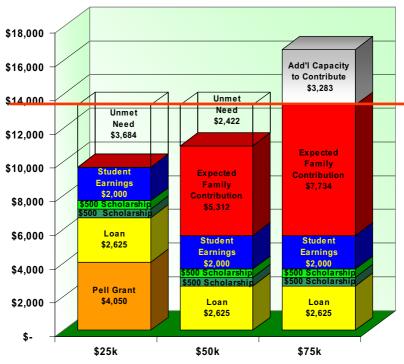

Expenses

Hypothetical Student Profile:

- Idaho Resident Attending BSU, ISU, UI or LCSC
- Traditional Student (single, no dependents)
- Only Family Member in College, Living Away from Home
- Pursuing an Undergraduate Degree
- Taking Full-Time Course Load (at least 12 credits per semester)
- 3.0 High School GPA

Cost to Attend College REVENUES

The students with the greatest amount of unmet need are those with lower family incomes. As a result, fewer students from low income families pursue higher education. Roughly 80% of the high school graduates from high income families go on to college while 50% of those from low income families do so. Students from moderate income families also face significant unmet need.

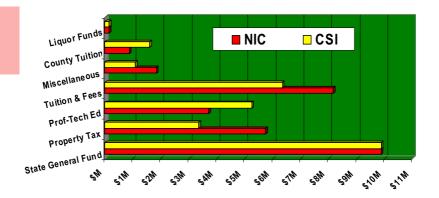

Revenues Based on Annual Family Income

Students address their Unmet Need in a variety of ways. Some never enroll. Some attend part-time and work full-time which can lead to poor academic performance and delayed graduation. Some minimize expenses by living at home or not buying books. Others 'stop out' or drop out of school until they've earned enough money to re-enroll. Some use credit cards. Some drop out after accumulating significant debt.

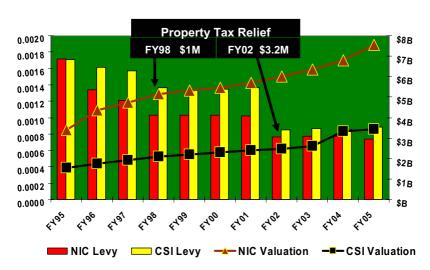

Community College Funding

Source: North Idaho College & the College of Sourthern Idaho

The property tax levies that Kootenai County residents pay for NIC and that Twin Falls and Jerome County residents pay for CSI have been cut in half over the past ten years due primarily to relief provided by the Legislature.

NIC & CSI Levy Rates & County Valuations

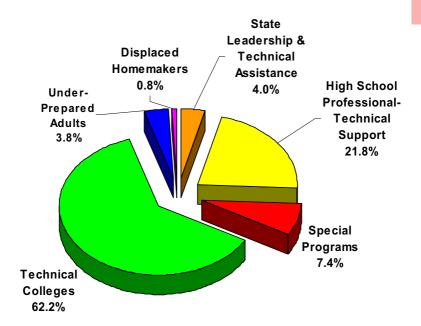

Professional-Technical Education

Source: Division of Professional-Technical Education

Nearly three out of every four General Fund dollars appropriated for Professional-Technical Education goes to Idaho's six technical colleges (at BSU, ISU, LCSC, CSI, NIC and EITC).

That amount totals \$33.5 million.

More than half of the remaining dollar--or \$11.7 million--supports high school professional-technical programs.

(in millions) By Fund Source	FY 1995	FY 2005	Annual % Change	Total % Change
